PART NUMBER

**6974560220526**  
EAN

## Description

The new model UK4229 EVO is a 19" Rack case of 4U format with depth of 480 mm. Unlike its predecessor, its front contains two USB 3.0, includes a 120 mm rear fan plus two 80 mm fans on the side, for better cooling. Its matte black design, as well as its structure and style, make it a perfect choice for professional environments. For greater security, its front comes equipped with key lock. In this way and with the help of the front dust filter, the internal components are protected, prolonging their useful life and also favoring stable cooling.

## Scheme

The 19" standard for the computer industry is a benchmark in business and industrial equipment. The IPC chassis or 19-inch rack boxes offer solutions for multiple needs, adapting in their different configurations to the specific requirements of modularity, power and size demanded by integrators looking for a professional solution.
