# HEATSINK CPU COOLER 90MM UK532002

The perfect cooler for all types of equipment and assemblies with Intel technology. Provides powerful, fast and silent cooling. Our 90 mm fan is optimized for the generation of large air flow at low revolutions. It is easy to install with push and pull technology. The aluminum base is in direct contact with the CPU, thus guaranteeing a constant cooling and a perfect dissipation of the heat generated by your equipment.
